● WORK EXPERIENCE

06/07/2020 – 14/12/2020 – Milan, Italy

REACTJS DEVELOPER – RetApps Srl

Student @ Strive School

I have been learning MERN full-stack development and during the course, we developed several different web applications as a team as well as an individual.

-Spotify Mock-up

An individual project built using reactjs, where you can listen, search for songs/artist/albums/artist page & post a review with the rating.

-Linkedin Mock-up

An individual project built using reactjs and redux where you can log in / register & create your profile, add a post, react on other user's posts, chat with other users, etc.

-Ideal Place to Work

Capstone Team project- App made in reactjs where you can search for a cafe, coworking space, etc for working purposes. You can rate a place and filter places by fields like Google Service, Strong WiFi, etc.

-COVID19 Dashboard (a personal project which I am presently working on)

A simple dashboard with data-tables maps and graphs, app made in reactjs using different APIs to get the world info and exported .json file from the public repo of Dept. of Civil Protection Italy to get the regions and provinces.
